Matched Giving

Matched Giving appears to be a well kept secret. Did you know there are hundreds of organisations throughout the UK, that offer their employees the chance to boost their individual fundraising efforts by 'matching' the money they raise for their chosen charity?

Matched giving or matched funding is a simple way of maximising the fundraising efforts of our Parents' Association. It is an informal albeit corporate arrangement between a company and their employee. Not all companies offer matched funding but those that do will pledge a sum of money relating to the amount their employee has raised for or donated to the charity of their choice.

Some organisations will match fund on a £ for £ basis, others will stipulate what they are prepared to give. It is likely that an upper limit will be applied along with certain criteria such as the recipient organisation being a registered charity.

Some companies will also pledge time and resources instead of money, so enabling their employees to support a cause during their working week, or offering a tangible service such as the opportunity to print posters, programmes, newsletters and so on.

There is no definitive list of companies that support Matched Giving but it is safe to say that it is usually large organisations that will have established match funding programmes in place like banks, building societies, national supermarkets, car manufacturers, petrol companies, chain stores and global companies.

Overleaf is a list of companies who we understand will match the charitable gifts of their employees. This list is by no means definitive, please do let us know if you find any omissions or errors. If you work for a major company that's not on the list ask them if they support anything similar.

If you think your employer would support Matched Giving or for more information please email us pa@simmondleyprimaryschool.com
